

What Are Cookies?

Cookies are small files stored on your computer. They hold information about your visit to our website. Cookies can be accessed by the web server or the user's computer. They are used to enhance the user's experience when visiting datagroup.ie e.g. a page can be tailored to the user's specific needs based on information collected.

Cookies cannot harm your computer.

Datagroup's Cookies Policy

Datagroup use cookies to enhance your experience when browsing datagroup.ie. We use the information gathered from cookies to make datagroup.ie better for you, for example, they help us to identify problems, fix errors and to improve our page designs.

We work with carefully selected website developers and third party agencies who may set cookies during your visit to datagroup.ie. These cookies are used for re-marketing – this means they are used to show you advertisements for different products and services based on what you appear to be interested in.

We do not use cookies to store personally identifiable information such as your name, address or credit card details.

We are sharing this information with you to comply with European legislation, but more importantly to ensure that we are honest, clear and upfront about your privacy when using our website.
